Sir:

AMENDMENT UNDER 37 CFR 1.121(a)

In response to the Office Action of February 12, 2003, please amend the
above-identified application as follows.

IN THE CLAIMS

Amend claims 1, 11 and 21 as follows:

1. (Twice Amended) A camera control system for controlling an image pickup direction
of a camera connected to said camera control system through a network, said camera control
system comprising:
- a display control device adapted to display a map;
 - a first camera index indicative of a position of the camera in a state of being
superimposed on the map and a second camera index on the map, indicative of a state of a
current tilting direction of the camera in relation to the camera index by changing said second
